Super Dave inches away from another Top Ten finish at Waterford!

5/26/09-Tilton, NH.....Super Dave Sanborn entered the ISMA 35<sup>th</sup> Anniversary season opener at Waterford Speedbowl. This was Dave's third season opener at Waterford and it was another great race!

While the Tilton driver had a rough practice, the team was able to replace the rear end gears and driveshaft and with just moments to spare Super Dave made his heat race. Finishing 6<sup>th</sup>, Super Dave was happy with the performance of the car, "The car was really loose for the heat race but I am really proud of my guys, and gals that worked so hard after I broke it in practice"

Starting 17<sup>th</sup> for the 50 lap feature, Dave somehow managed to miss two wrecks that resulted in red flag conditions. "I definitely had some help from above on a couple of those wrecks; I'm still not sure how I didn't knock the nose of the car". Once back underway, Dave made his way through the field, missing 10<sup>th</sup> spot by mere inches. "The car was still too loose but all the work we put into it over the winter is producing a much more consistent car. We seem to have stopped it from being so temperamental. So over all very-very happy with the weekend"

The next schedule event is Oswego Speedway in June (date yet to be determined). Super Dave will go topless for another chance to win at Oswego. Remember he won the Bud Light B-Main at the International Classic last September.

Super Dave would like to thank his sponsors:
